SUMMARY

Analytical and motivated Data Science student with a solid background in data analysis, machine learning, and statistical techniques. Currently enhancing practical and technical skills through the Digital Egypt Pioneers Initiative (DEPI), with hands-on experience using Python, SQL, and Power BI for data-driven problem solving. Skilled in data preprocessing, visualization, feature engineering, and model evaluation, with the ability to extract meaningful insights from complex datasets and support informed decision-making.

EDUCATION

Alexandria University

Alexandria, Egypt

Bachelor of Data Science

Sep. 2024 – Present

- **Expected Graduation:** June 2028
- **CGPA:** 3.93
- **Relevant Coursework:** Machine Learning, Data Mining and Analytics, Regression Analysis, Probability and Statistics, Data Science Methodology, Tools, OS, System Analysis, Cloud Computing.

Digital Egypt Pioneers Initiative (DEPI)

Alexandria — Online

Data Analysis Track Trainee

Nov. 2025 – Present

- Participating in an intensive training program focused on practical data analysis and business intelligence skills.
- **Core Skills:** Python, SQL, Power BI, Advanced Excel, Data Cleaning, Data Visualization.
- Working on hands-on projects involving data preprocessing, analysis, dashboard creation, and extracting actionable insights from datasets.

SKILLS

Data Analysis & Visualization: SQL, Power BI, Power Query, Advanced Excel, Data Cleaning, Data Visualization, and Data Preprocessing.

Machine Learning & Analytics: Regression Analysis, Classification, Clustering, Naive Bayes, Genetic Algorithms, and Fuzzy Logic.

Programming & Technical Tools: Python, R, SAS, Java, and Git/GitHub.

Soft Skills: Problem-Solving, Team Collaboration, Communication Skills, Time Management, and Leadership.

Languages: Arabic (Native), English

PROJECTS

FIFA 23 Unified Scouting System

Alexandria University

Programmer / Machine Learning Developer

- * Developed an end-to-end machine learning pipeline to analyze FIFA 23 player data and predict player market values.
- * Built classification models to categorize players into performance tiers (Low, Mid, High, Elite) using weighted performance metrics.
- * Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis to improve model performance and reliability.
- * Prevented data leakage by excluding highly correlated target-related features such as `Overall_Rating` during model training.
- * Evaluated and compared multiple machine learning algorithms, including Naive Bayes models, to analyze scaling sensitivity and prediction accuracy.

Data Mining Project

Programmer / Developer

Alexandria University

- * Developed an end-to-end analytics system on a student mental health dataset to predict burnout risk and identify at-risk students.
- * Performed full data preprocessing pipeline including cleaning, feature engineering, and transformation to prepare data for modeling.
- * Applied hierarchical clustering and fuzzy logic techniques to group students based on behavioral and psychological patterns.
- * Implemented a Genetic Algorithm to optimize model performance and improve burnout prediction accuracy for early intervention support.

Contoso Retail Data Analysis

Data Analyst

DEPI

- * Designed and developed interactive Power BI dashboards covering Executive, Finance, Sales, Operations, Marketing, and Product performance metrics.
- * Conducted in-depth financial analysis revealing \$2.69B in net sales and \$1.08B in net profit, highlighting that B2B transactions (£2.01B) significantly outperformed B2C revenue streams.
- * Analyzed customer behavior and marketing effectiveness, tracking 18.87K active customers and a 90.56% promotional uplift, while identifying long-term declines in customer acquisition trends.

EXTRA-CURRICULAR

Mentor

Mar 2026 - Present

Technovation Girls 2026

Online

- * Mentoring young girls in technology and entrepreneurship, guiding them through building impactful tech solutions for real-world problems.

Seminars & Events Attendee

2024 – Present

Workshops

Bibliotheca Alexandrina

- * Actively attending seminars and knowledge-sharing events, continuously expanding perspectives across technology, science, and culture.

DEPI Organizer

Jan 2026 – Present

Organizer of parties and events made by DEPI

Skills Dynamix

- * Managing events from zero by sending event participants and guests till finishing the event

ACM Member

Sep 2025 – June 2026

HR Committee Member

Alexandria University

- * Managed communication with members and assisted in the recruitment and onboarding process for new participants.
- * Helped organize events, meetings, and internal activities to improve member engagement within the ACM community.
- * Supported teamwork and coordination between different committees to ensure smooth workflow and collaboration.

Future Job Skills for Youth Workshop

Jan 2026

Attendee (12-hour Technical Training)

Bibliotheca Alexandrina

- * Learned about the jobs of the future and how to use AI in different fields.
- * Studied topics like innovation, entrepreneurship, and digital marketing to build a modern skill set.
- * Explored how sustainable development and new technologies are changing the global market.
